

# Invest in the cogwheels of the Indian economy

## Edelweiss Large Cap Advantage Fund

An open-ended equity scheme that aims to invest in stocks of large, well-established enterprises with strong balance sheets, a notable history of consistent growth and good corporate governance.

### Investment Strategy

- **Stock Universe:** The scheme aims to invest in stocks that are among the top 100 with respect to market capitalisation\*.
- **Stock Selection:** Stocks are selected on the basis of a rigorous research process with stringent quality checks.
- **Growth at Reasonable Price:** The scheme seeks to invest in stocks that are available at reasonable prices and have a history of delivering above-average earnings growth. It aims to generate better returns than its benchmark index over the long term.

\* Market capitalisation is an indicator of the company's market value. A company's market capitalisation is calculated by multiplying the number of its outstanding shares with its share value.

## Key Benefits

- **Resilience:**

Large cap stocks are known to be resilient to short-term market turbulence. It is very difficult for a large and diversified corporate conglomerate to go out of business.

- **Diversification:**

The scheme aims to invest across various sectors seeking to benefit from the potential growth of several segments of the economy and to spread risk.

- **Tax benefit:**

Returns earned on investments held in this scheme for a year or more are tax free.

## Who should invest?

- Investors aiming to invest in equity for at least five years or more
- Investors seeking reasonable returns over the long term
- Investors looking to diversify their equity portfolio across various sectors
