## Prepaid SIP

Add the benefits of time and timing to your portfolio by investing at every market fall.

With 'Prepaid SIP' you can invest a pre-decided amount as and when there is a market fall beyond a pre-defined limit, allowing you to enter the markets at the right time.

'Prepaid SIP' is an action based trigger facility offered under various schemes of Edelweiss Mutual Fund that serves as a financial planning tool.

### How does 'Prepaid SIP' works:

### Benefits of Prepaid SIP

- Add the benefit of 'time' and 'timing' to your investment which allows you to accumulate more units at the right time.
- An easy one-time mandate allows automatic switching.
- Invest only at pre-determined market fall levels.
- Benefit from the flexibility of defining the frequency of number of debits in a month.
