

Perfect timing for the perfect switch

With **Prepaid STP**^{*} get the perfect timing for
switch from selected source scheme to target scheme

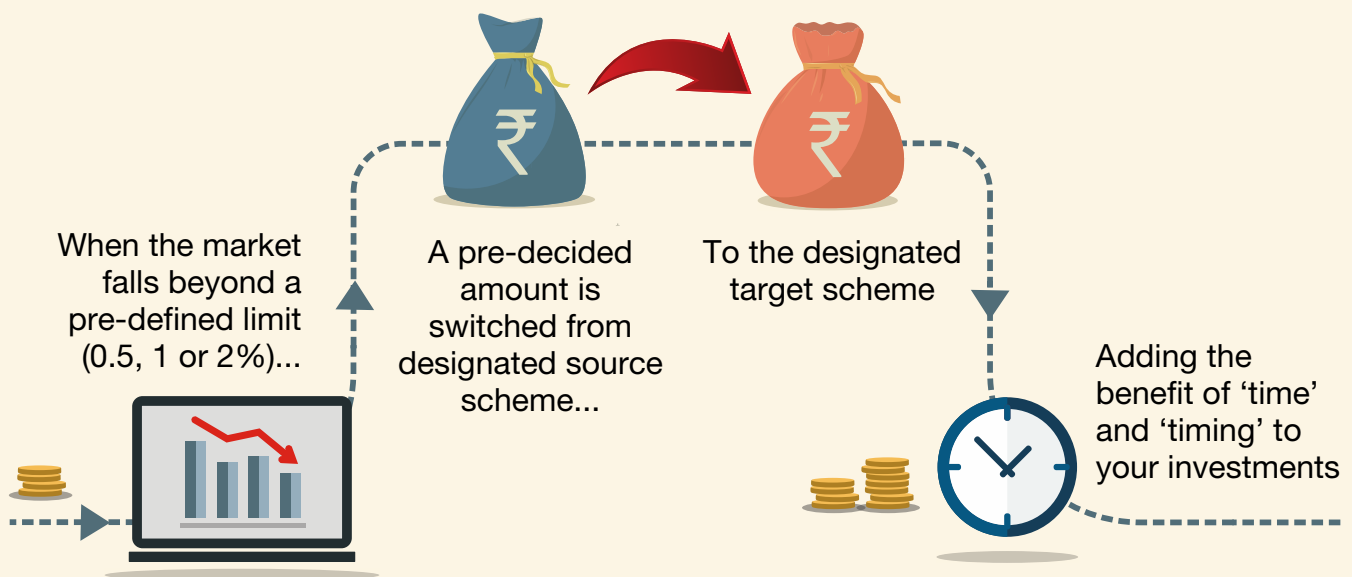

Prepaid STP

Add the benefits of time and timing to your portfolio by investing at every market fall.

With 'Prepaid STP' you can switch a pre-decided amount between schemes as and when there is a pre-defined market fall.

'Prepaid STP' is an action based trigger facility offered under various schemes of Edelweiss Mutual Fund that serves as a financial planning tool.

How 'Prepaid STP' works:

Benefits of Prepaid STP

- **Enter at every market fall**
Investing at market fall allows you to accumulate more units. You reap the benefits of this in the long run.
- **Easy and Automatic**
Investors have to give a one time mandate to activate these facilities. Once done, the amount will automatically get switched to designated target scheme at every pre-defined market fall.
- **Enlarge your SIP**
Under Prepaid STP investors have an option to invest higher amount on higher market fall. e.g. Investors can choose to invest ₹1000, ₹2000, ₹3000 when markets falls by -0.5%, -1% and -2%
