2. In case the rating of any security is downgraded to below the rating mandated in the index methodology (including downgrade to below investment grade), the portfolio be rebalanced within 30 calendar days.

	<ul> <li>3. Investment Strategy	Edelweiss CRISIL-IBX AAA Financial Services – Jan 2028 Index Fund is a passively managed Index fund which will employ an investment approach designed to track the CRISIL-IBX AAA Financial Services Index – Jan 2028. The Scheme will invest at least 95% of its total assets in the instruments representing the underlying Index. Accordingly, the Scheme will invest in instruments in line with the benchmark index of the Scheme. The Scheme may also invest in Cash and Cash Equivalents to meet the liquidity and expense requirements. Being a target maturity scheme, it will mature on the Maturity Date. The Scheme shall replicate the underlying debt index subject to the requirements as specified under para 3.5 of SEBI Master Circular on Mutual Funds dated June 27, 2024.
	The Scheme will abide by the relevant provisions contained in Paragraph 3.5 of SEBI Master Circular dated June 27, 2024, including but not limited to investment limits for single issuer, group, sector; disclosure norms; tracking error and tracking difference.
	The Scheme shall be considered to be replicating the underlying index, provided:
	i. The Macaulay duration (MD) of the portfolio of ETF/ Index Fund replicates the MD of the underlying index within a maximum permissible deviation of +/- 10%.
	ii. In case of Target Maturity (or Target Date) ETFs/ Index Funds, the following norms for permissible deviation in MD shall apply:
	<ul> <li>a. For portfolio with residual maturity of greater than 5 years: Either +/- 6 months or +/- 10% of MD, whichever is higher.</li> <li>b. For a portfolio with residual maturity of up to 5 years: Either +/- 3 months or +/- 10% of MD, whichever is higher.</li> <li>c. However, at no point of time, the residual maturity of any security forming part of the portfolio shall be beyond the target maturity date of the ETF/</li> </ul>
Risk Profile of the Scheme	Index Fund.           Mutual Fund Units involve investment risks including the possible loss of principal.
	Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:
	1. Risk associated with investing in Financial Services sector

• Portfolio Concentration risk: To the extent that the Scheme may concentrate
its investments in the securities of certain issuers sectors, the Scheme will
therefore be subject to the risks associated with such concentration. In
addition, the Scheme may be exposed to higher levels of volatility and risk than
would generally be the case in a more diverse fund portfolio of debt securities.
Financial Services sectors may be more sensitive to economic cycles.
• Systemic Risk: The finance sector is highly interconnected. A crisis in one
institution or segment can trigger a cascading effect throughout the sector,
affecting even well-performing entities. Events such as bank failures or credit
rating downgrades can lead to panic and widespread selling, impacting
concentrated investments significantly.
• Regulatory Changes: The finance sector is subject to frequent regulatory
changes. Concentration in specific financial instruments may expose investors
to risks if regulations tighten suddenly
• Interest Rate Risk: Financial debt instruments are particularly sensitive to
interest rate fluctuations. Concentrated investments in long-duration bonds
can lead to greater price volatility as rates rise. Changes in the yield curve can
disproportionately affect concentrated holdings, especially if they are heavily
weighted in certain maturities.
Liquidity Risk: Concentrating investments in a limited number of financial
securities may lead to liquidity challenges. During market stress, selling these
securities may become difficult without significant price concessions. If
investors seek to redeem shares in a concentrated fund, the fund may struggle
to liquidate positions quickly, leading to further price impacts and potential
losses.
2 Disks Associated with investing in Data and Manay Market
2. Risks Associated with investing in Debt and Money Market
Instruments
Interest rate Risk: Price of a fixed income instrument generally falls when the interest rates move up and vice- versa. The extent of fall or rise in the prices
depends upon the coupon and maturity of the security. It also depends upon
the yield level at which the security is being traded. The NAV of the Scheme is
expected to increase from a fall in interest rates while it would be adversely
affected by an increase in the level of interest rates.

<b>3. Risks Associated with investing in Government Bonds:</b> Investment in Government securities like all other debt instruments is subject to price and interest rate risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to Government securities but is true for all fixed income securities. Despite a high degree of liquidity in comparison with other debt instruments on occasions, there could be
<ul> <li>which intermediate cash flows are reinvested may differ from the original interest rates on the security, which can affect the total earnings from the security. If a concentrated fund holds a significant amount of bonds maturing in a specific timeframe, reinvestment options may be limited, potentially leading to lower returns.</li> <li>* Performance Risk: Performance of the Scheme may be impacted with changes in factors, which affect the capital market and in particular the debt market.</li> <li>* Prepayment Risk: The Scheme may receive payment of monthly cashflows earlier than scheduled, which may result in reinvestment risk.</li> <li>* Market Risk: Lower rated or unrated securities are more likely to react to developments affecting the market as they tend to be more sensitive to changes in economic conditions than higher rated securities.</li> <li>* Concentration Risk: The Scheme Portfolio may invest across sectors subject to SEBI prescribed limits applicable from time to time in line with Scheme objective, Investment strategy and applicable regulations.</li> </ul>
<ul> <li>adverse movements in NAV.</li> <li>Lot size risk: To meet subscription / redemption requirement, fund manager may have to add /reduce odd lots of a security. Such odd lots may be harder to buy/ sell compared to round lots. This can result in longer buying / selling times or lower prices. The fund manager may decide to sell more feasible security or hold higher cash in fund until deployment or have to allot / reduce across funds of similar fund objective.</li> <li>Reinvestment Risk: Interest rates may vary from time to time. The rate at</li> </ul>
Liquidity & Settlement Risk: The liquidity of a fixed income security may change, depending on market conditions leading to changes in the liquidity premium attached to the price of such securities. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio. Different segments of the financial markets have different settlement cycle/periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. This can adversely affect the ability of the Fund to swiftly execute trading strategies which can lead to

## a. Passive Investments:

As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select securities or to take defensive positions in declining markets.

## b. Tracking Error Risk:

Tracking Error is divergence of the performance (return) of the Fund's portfolio from that of the Underlying Index. Based on that the availability of issuances by the CPSEs/CPSUs/CPFIs and other Government organizations, it is expected that the Portfolio allocation could be different than that of underlying index allocation and could result in Tracking Error. That said, the risk parameters of the portfolio of the Scheme and underlying index could be similar.

The Fund will endeavor to keep the tracking error as low as possible. Under normal circumstances, such tracking error is expected to be below 2% per annum.

Tracking error could be the result of a variety of factors including but not limited to:

- Due to investment in out of index investments
- Due to mismatch in the weight of the issuers forming part of the Index and the Scheme.
- Change in asset allocation between the Index and the Scheme in the last year of the Scheme.
- Difference in valuation of underlying bonds by the Index Provider and AMC's valuation providers.

## c. Trade Execution Risk on RFQ Platforms:

Current SEBI regulations mandates Mutual Funds to execute certain % of their monthly trading volume in corporate bonds on RFQ platforms. RFQ platforms are peer-to-peer platforms and are still in development stage. Therefore, they have lower level of secondary market liquidity. Mandatory execution of trades on RFQ among MFs may hamper trade execution efficiency during periods of heavy outflows.

## 5. Risks Associated with exposure in Tri-party Repo

Risk of exposure in the Tri-party Repo settlement Segment provided by CCIL emanates mainly on two counts –

- Risk of failure by a lender to meet its obligations to make funds available or by a borrower to accept funds by providing adequate security at the settlement of the original trade of lending and borrowing under Tri-party Repo transaction.
- 2) Risk of default by a borrower in repayment.

## 6. Risks Associated with segregated portfolio

	<ol> <li>Unit holder holding units of Segregated Portfolio may not able to liquidate their holdings till the recovery of money from the issuer.</li> </ol>
	<ol> <li>Portfolio comprising of Segregated Portfolio may not realise any value or may have to be written down.</li> </ol>
	Listing of units of Segregated Portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.
	For details on risk factors and risk mitigation measures, please refer SID.
Plans/Options	The Scheme will offer two Plans: 1. Regular Plan; and 2. Direct Plan
	The Direct Plan will be offered only for investors who purchase /subscribe Units of the Scheme directly with the Fund and will not be available for investors who route their investments through a Distributor. In case neither Distributor's Code nor "Direct" is indicated in the application form, the same will be treated as "Direct Plan" application.

IDCW Policy (earlier known as	IDCW Distribution Proc	edure:	
Dividend Policy)	SEBI Circular lays down the	e procedure for Declaration	of IDCW which clearly says
	that quantum of IDCW and	record date shall be fixed by	the Board of Trustees and
		to the public communicating within one calendar day of neeting.	

Record date shall be the date that will be considered for the purpose of determining the eligibility of investors whose name appears on the register of Unit holders. Record date shall be two Working Days from the issue of public notice.

The Trusteeship Company reserves the right to declare IDCW on a regular basis and can distribute the same out of investors capital (Equalization Reserve), which is part of sale price that represents realized. The Fund does not guarantee or assure declaration or payment of IDCW. Although the Trustees have intention to declare IDCW under IDCW Option, such declaration of IDCW if any, is subject to Scheme's performance & the availability & adequacy of distributable surplus in the Scheme at the time of declaration of such IDCW.

Investors should note that, when the Mutual Fund declares a IDCW under the Scheme, the dividend payments shall be dispatched within seven Working Days from the record date. The requirement of giving notice & the above laid procedure shall not be compulsory for Scheme/plan/option having frequency of IDCW distribution from daily upto monthly IDCW.

## • Effect of IDCWs:

When IDCWs are declared and paid under the Scheme, the net assets attributable to Unit holders in the IDCW Option will stand reduced by the IDCW amount subject to TDS and statutory levy if any. The NAV of the Unit holders in the Growth Option will remain unaffected by the payment of IDCW.

Even though the asset portfolio will be un-segregated, the NAVs of the Growth Option and IDCW Option will be distinctly different after declaration of the first IDCW to the extent of distributed income, tax and statutory levy paid thereon, where applicable, and expenses relating to the distribution of IDCWs.

## • Mode of Payment of IDCWs:

The Scheme proposes to pay IDCW by Direct Credit or through RTGS or NEFT or any other EFT means.

RBI offers the facility of EFT for facilitating better customer service by direct credit of IDCW amount to a Unit holder's bank account through electronic credit which avoids loss of IDCW in transit or fraudulent encashment. The Mutual Fund will endeavour to offer this facility for payment of IDCW/repurchase proceeds to the Unit holders residing in any of the cities where such a Bank facility is available.

The Fund is arranging with selected bankers to enable direct credits into the bank accounts of the investors at these banks. If an investor has an account with a bank with which the Fund will tie up for direct credit, the IDCW amount will be credited directly to the bank account, under intimation to the Unit holder by email/SMS/post. The Mutual Fund, on a best effort basis, and after scrutinising the names of the banks where Unit holders have their accounts, will enable direct credit/RTGS/NEFT/ to the Unit holders' bank accounts.

	While the preferred mode of payment is through EFT route, the AMC is at the sole discretion to pay IDCW by any other means (including at par cheques and demand drafts, where the EFT facility is not available in a particular city or Bank or as the Trusteeship Company or the AMC deems fit in the interest of investors.) All the IDCW payments shall be in accordance and compliance with SEBI Regulations, as amended from time to time.		
	<ul> <li>If Unit holders have opted for Payout of Income Distribution cum capital withdrawal option Option, if the IDCW amount payable to such Unit holders (net of tax deducted at source, wherever applicable) is less than or equal to Rs. 100, following treatment shall be:</li> <li>Where the option to payout IDCW is available in electronic mode: The IDCW amount shall be paid to the Unit holders.
