	There can be no assurance that the investment objective of the scheme will be realized. The Fund Manager may churn the portfolio to the extent as considered necessary to replicate the index.
	Pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as amended from time to time.
RISK PROFILE OF THE SCHEME	Apart from the risk factors mentioned in SAI, following are some of the additional risk factors which investors are advised to go through before investing:
	a) STANDARD RISK FACTORS:
	<ul> <li>Investment in Mutual Fund Units involves investment risks such as trading volumes,</li> </ul>
	settlement risk, liquidity risk, default risk including the possible loss of principal.
	* As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down
	<ul> <li>Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.</li> </ul>
	<ul> <li>Edelweiss Focused Equity Fund is only the name of the Scheme &amp; it does not in any manner indicate either the quality of the Scheme or its future prospects and returns.</li> </ul>
	* The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.1,00,000 made by it towards setting up the Fund.
	* The Scheme is not a guaranteed or assured return Scheme.
	b) SCHEME SPECIFIC RISK FACTORS:
	The performance of the Scheme may be affected by changes in Government policies,
	general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems, etc. Some of the Risks are listed below:
	<b>1. Risk Factors Associated with Equity &amp; Equity related instruments</b> The value of the Scheme's investments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, etc. Settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. The Scheme may face liquidity risk or execution risk or redemption risk or the risk of NAV going below par.
	Investments in equity and equity related securities involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date for disinvestment.

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio.

At times, taking benefit of investing in Special Situations may involve certain risks like the promoter may choose not to accept the discovered prices or the Regulatory hurdles may delay any specific corporate action. For details, please refer SAI.

## 2. Risks Associated with investing in Money Market Instruments

- Interest rate Risk: Price of a fixed income instrument generally falls when the interest rates move up and vice- versa. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
- **Credit risk or default Risk:** Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest and/or principal payment obligations. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.
- Liquidity & Settlement Risk: The liquidity of a fixed income security may change, depending on market conditions leading to changes in the liquidity premium attached to the price of such securities. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio. Different segments of the financial markets have different settlement cycle/periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. This can adversely affect the ability of the Fund to swiftly execute trading strategies which can lead to adverse movements in NAV.
- **Reinvestment Risk:** Interest rates may vary from time to time. The rate at which intermediate cash flows are reinvested may differ from the original interest rates on the security, which can affect the total earnings from the security.
- **Performance Risk:** Performance of the Scheme may be impacted with changes in factors, which affect the capital market and in particular the debt market.
- **Prepayment Risk:** The Scheme may receive payment of monthly cashflows earlier than scheduled, which may result in reinvestment risk.
- **Market Risk**: Lower rated or unrated securities are more likely to react to developments affecting the market as they tend to be more sensitive to changes in economic conditions than higher rated securities

## 3. Risk factors associated with Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.
<ul> <li>Trading in derivatives has the following risks:</li> <li>a. An exposure to derivatives in excess of the hedging requirements can lead to losses.</li> <li>b. An exposure to derivatives, when used for hedging purpose, can also limit the profits from a genuine investment transaction.</li> <li>c. Derivatives carry the risk of adverse changes in the market price.</li> <li>d. Illiquidity Risk i.e. risk that a derivative trade may not be executed or reversed quickly enough at a fair price, due to lack of liquidity in the market.</li> </ul>
The Fund may use derivatives instruments like equity futures & options, or other derivative instruments as permitted under the Regulations and Guidelines. Usage of derivatives will expose the Scheme to liquidity risk, open position risk, and opportunities risk etc. Such risks include the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. In case of the derivative strategies, it may not be possible to square off the cash position against the corresponding derivative position at the exact closing price available in the Value Weighted Average Period. Debt derivatives instruments like interest rate swaps, forward rate agreements or other derivative instruments also involve certain risks. For details, please refer SAI.
<ul> <li>4. Risks Associated with exposure in Tri-party Repo</li> <li>Risk of exposure in the Tri-party Repo settlement Segment provided by CCIL emanates mainly on two counts – <ul> <li>a. Risk of failure by a lender to meet its obligations to make funds available or by a borrower to accept funds by providing adequate security at the settlement of the original trade of lending and borrowing under Tri-party Repo transaction.</li> <li>b. Risk of default by a borrower in repayment.</li> </ul></li></ul>
<ul> <li>5.Risks Associated with Stock Lending &amp; Short Selling:</li> <li>i) Risks associated With Stock Lending</li> <li>The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the</li> </ul>
value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can be temporary illiquidity of the securities

that are lent out and the Scheme will not be able to sell such lent-out securities until they are returned. There is also a possibility of opportunity loss.

## ii) Risks associated with short selling

Scheme may enter into short selling transactions, subject to SEBI and RBI regulations in the matter. This will be done if the fund management team is of the view that there exists an opportunity to make trading gains. Calls for short selling will be taken after considering the liquidity, price movement & volatility of the security by the fund management team. There can be a loss in such a transaction if the price of the security goes up instead of falling down.

# 6.Risk factors associated with Repo transactions in Corporate Debt: i) Lending transactions:

The scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo lending transactions, the collateral may be sold, and a loss is realized only if the sale price is less than the repo amount. The risk may be further mitigated through over-collateralization (the value of the collateral being more than the repo amount). Further, the liquidation of underlying securities in case of counterparty default would depend on liquidity of the securities and market conditions at that time. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation and over-collateralization to cushion the impact of market risk on sale of underlying security.

## ii) Borrowing transactions:

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin). This risk is normally mitigated by better cash flow planning to take care of such repayments. Further, there is also a Credit Risk that the Counterparty may fail to return the security or Interest received on due date. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation.

## 7. Risks associated with writing covered call options for equity shares

- a. Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.
- b. The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares and result in loss of opportunity.
- c. The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.

	d. The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme. This may restrict the ability of Scheme to buy any options.
	<ul> <li>8. Risk Factors Associated with Investments in REITs and InvITs:</li> <li>Market Risk: REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the entipieded transfer. The NAV of the Cohema is well-applied to the cohema is applied to</li></ul>
	be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures.
	• Liquidity Risk: As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of
	immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk.
	<ul> <li>Reinvestment Risk: Investments in REITs &amp; InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-</li> </ul>
	outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.
	The above is some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.
	9. Risks Associated with segregated portfolio
	<ul> <li>a) Unit holder holding units of Segregated Portfolio may not be able to liquidate their holdings till the recovery of money from the issuer.</li> </ul>
	<ul> <li>b) Portfolio comprising of Segregated Portfolio may not realise any value or may have to be written down.</li> </ul>
	c) Listing of units of Segregated Portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

- 8. same will be reinvested. (Except in case of Edelweiss Long Term Equity Fund (Tax Savings).
- In case of investment through electronic mode (RTGS/ Transfer letter), you are requested to contact the nearest AMC/ Karvy ISC for the Bank Account Number to which the purchase/additional purchase amount is to be credited.

10. NRI/FII's

Repatriation basis: - Payments by NRIs/FIIs may be made by way of cheques drawn on non-resident external accounts payable at par and payable at the cities where the Investor Service Centers are located. Non-Repatriation basis:- NRIs investing on a non repatriable basis may do so by issuing

cheques drawn on Non-Resident Ordinary (NRO) account payable at the cities where the Investor Service Centers are located.

11. In case of payment through electronic mode (RTGS/NEFT or Transfer Letter), need to provide the bank acknowledgement copy along with purchase application

#### VIII. **PAYMENT OF REDEMPTION / IDCW**

Investors are requested to provide the following details along with the mandatory requirement of bank account details (bank, branch address, account type and account no.) in the application form for electronic fund transfer (EFT) of IDCW / redemption amount to the unit holders bank account. AMC will automatically extend this facility to all unit holders in case the bank account as communicated by the unit holder is with any of

the bank providing EFT facility. a. The 11 digit IFSC (Indian Financial System) Code b. The 9-digit MICR (Magnetic Ink Character Recognition) number appearing next to the cheque number in the cheque leaf (Please attach copy of the cancelled cheque for verification) Based on the above information AMC will enable secure transfer of your redemption and dividend payouts via the various electronic mode of transfers (RTGS / NEFT / Direct Credit mode that are available in the banking system).

This facility of EFT is safe and fast and eliminates the potential risk of loss of instruments in transit through physical mode. The Mutual Fund, however, reserves the right to issue a cheque / demand draft to unit holders residing at locations where this facility is not available.

"If the remittance is delayed or not affected for reasons of incomplete or incorrect information, AMC cannot be held responsible". For validation of IFSC/MICR code, investor to attach the cancelled cheque/copy of cheque (PSU banks account holders to provide the front page of pass book along with cheque copy). If these documents are not provided the fund will not be responsible consequent delay in receipt of payment. Fund is also not responsible for bankers delay.

According to SEBI Guidelines under 'The Prevention of Money Laundering Act, 2002', Mutual Funds are required to follow enhanced know your customer (KYC) norms. Further, SEBI has also notified SEBI (KYC Registration Agency) Regulations, 2011 on December 23, 2011 with a view to bring uniformity in KYC requirements for the securities market and to develop a mechanism for centralization of the KYC records. Accordingly the following procedures shall apply:

SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries viz. Mutual Funds, Portfolio Managers, Depository Participants, Stock Brokers, Venture Capital Funds, Collective Investment Schemes, etc. New Investors are therefore requested to use the common KYC Application Form and carry out the KYC process including IPV with any SEBI registered intermediaries including mutual funds. The KYC Application Forms are also available on our website www.edelweissmf.com

- The Fund shall perform the initial KYC of its new investors and may undertake enhanced KYC measures commensurate with the risk profile of its investors in line with the aforementioned circulars/circulars issued by SEBI in this regard from time to time. The Fund shall upload the details of the investors on the system of the KYC Registration Agency ("KRA"). The Registrar & Transfer Agent of the Fund viz. KFin Technologies Private Limited ("Karvy") may also undertake the KYC of the investors on behalf of the Fund. On receipt of the KYC documents from the Fund, the KRA shall send a letter to the nvestor within SEBI stipulated timelines, confirming the details thereof.
- Once the investor has done KYC with a SEBI registered intermediary, the investor need not undergo the same process again with another intermediary but can submit the letter/acknowledgment issued by the KRA.
- It is mandatory for intermediaries including mutual funds to carry out IPV of its new investors. The IPV carried out by any SEBI registered intermediary can be relied upon by the Fund. Edelweiss Asset Management Limited and NISM/AMFI certified distributors who are Know Your Distributor (KYD) compliant are authorized to undertake the IPV for mutual fund investors. Further, in case of any applications received directly (i.e. without being routed through the distributors) from the investors, the Fund may rely upon the IPV (on the KYC Application Form) performed by the scheduled commercial banks.
- Existing KYC compliant investors of the Fund can continue to invest as per the current practice. However, existing investors are also urged to comply with the new KYC
- requirements including IPV as madated by SEBI. Application Form not accompanied by KYC Application Form or letter /acknowledgment issued by KRA may be rejected by the Fund. The KYC compliance status will be validated with the records of the KRA.AMC reserves the right to call for any additional information from the investors/applicant/reject applications/ subsequent application in order to fulfill the requirements of PMLA norms prescribed by SEBI/PMLA Regulation from time to time.

XIV Number and Name of applicants(s) corresponding to the said folio. It is the responsibility of the Investor to ensure correctness of such details provided. The personal details and Bank Account details as registered in the existing folio number as provided would apply to the said investment and the registered details would prevail over any conflicting information furnished in this form. Edelweiss Asset Management Limited reserves the right to assign any of the existing Folio Number of the investor against multiple applications and / or subsequent purchases under this new application form lodged, with identical mode of holding and address and such other criterions and integrity checks as may be determined by the Edelweiss Asset Management Limited from time to time.

#### Employee Unique Identification Number (EUIN): XV.

SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of Mutual Fund products to quote the EUIN obtained by him/her from AMFI in the Application Form. EUIN, particularly in advisory transactions, would assist in addressing any instance of mis-selling even if the employee/relationship manager/sales person later leaves the employment of the distributor. Individual ARN holders including senior citizens distributing Mutual Fund products are also required to obtain and quote EUIN in the Application Form. Hence, if your investments are routed through a distributor please ensure that the EUIN is correctly filled up in the Application Form.

However, if your distributor has not given you any advice pertaining to the investment, the EUIN box may be left blank. In this case, you are required to provide a duly signed declaration to this effect. Distributors are advised to ensure that the sub broker affixes his/her ARN code in the column separately provided in addition to the current practice of affixing the internal code issued by the main ARN holder and the EUIN of the Sales Person

### (if any) in the EUIN space. BENEFICIAL OWNERSHIP DETAILS: XVI

Under the Prevention of Money Laundering Act, 2005 ("PMLA"), all intermediaries including mutual funds are required to obtain sufficient information from their clients in order to identify and verify the persons who beneficially own or control the account. SEBI circular dated January 24, 2013 on identification of Beneficial Ownership has prescribed a uniform approach to be followed for determination of beneficial owners. A 'Beneficial owner' is defined as a natural person/s who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted, which includes persons who exercise ultimate effective control over a legal person or arrangement. All categories of investors except individuals, company listed on a stock exchange or

majority owned subsidiary of such company, are requested to provide details about beneficial ownership in the Application Forms for all their investments. The Fund reserves the right to reject applications/restrict further investments or seek additional information from investors who have not provided the requisite information on beneficial ownership. In the event of change in beneficial ownership, investors are requested to immediately update the details with the Fund/Registrar.

#### XVII FATCA DETAILS:

The Foreign Account Tax Compliance Act is a United States (US) federal law, aimed at prevention of tax evasion by US Citizens and Residents ("US Persons") through use of offshore accounts. The FATCA provisions were included in the HIRE Act enacted by the US legislature. FATCA is designed to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments.

As per SEBI circular no. CIR/MIRSD/2/2014 dated June 30, 2014, the Government of India and the US have reached an agreement in substance on the terms of an Inter-Governmental Agreement ("IGA") to implement the FATCA provisions, which have become globally applicable from July 1, 2014. FATCA requires enhancement of due diligence processes by the Foreign Financial Institutions ("FFI") so as to enable identification of US reportable accounts.

The Fund/ Edelweiss Asset Management Limited ("the AMC") are likely to be classified as a FFI under the FATCA provisions, in which case the Fund /the AMC would be required. from time to time, to (i) undertake necessary due diligence process by collecting information/ documentary evidence of the US/non US status of the investors; (ii) disclose/report information as far as may be legally permitted about the holdings/investment returns pertaining to reportable accounts to the US Internal Revenue Service and/or such Indian authorities as may be specified under FATCA or other applicable laws and (iii) carry out such other activities as prescribed under the FATCA provisions, as amended from time to time.

FATCA due diligence will have to be directed at each investor/unit holder (including joint investors) and on being identified as a reportable person/specified US person, all the folios will be reported. Further, in case of folio with joint investors, the entire account value of investment portfolio will be attributable under each such reportable person. Investors/Unit holders would therefore be required to furnish such information to the Fund/AMC, from time to time, in order to comply with the reporting requirements stated in the IGA and or circulars/guidelines issued by SEBI/AMFI in this regard.

The impact of FATCA is relevant not only at the point of on-boarding of the investors but also throughout the life cycle of the investor account / folio with the Fund. Hence investor(s) should immediately intimate the Fund/AMC, in case of any change in the FATCA related information provided by them at the time of initial subscription. The Fund/AMC reserves the right to reject any application or compulsorily redeem the

units held directly or beneficially in case the applicant/investor fails to furnish the relevant information and/or documentation or is found to be holding units in contravention of the FATCA provisions

Investors are advised to consult their tax advisors to understand the FATCA requirements and its implications in relation to their investment.

### XVIII. Central KYC Records Registry (CKYCR):

The Government of India vide their Notification dated November 26, 2015 authorised the Central Registry of Securitisation Asset Reconstruction and Security Interest of India (CERSAI) to act as and to perform the functions of the Central KYC Records Registry under the said rules, including receiving, storing, safeguarding and retrieving the KYC records wegistry under the Said rules, including receiving, storing, safeguarding and retrieving the KYC records under the Prevention of MoneyLaundering Act, 2002. SEBI required all the market intermediaries to update/upload KYC details of the new customer/investors (not KYC-KRA compliant) on CERSAI's online platform. CERSAI is a centralized repository of KYC records of customers/investors in the financial sector with uniform KYC norms and inter-usability of the KYC records across the sector with an objective to reduce the burden of producing KYC documents and getting those verified every time when the customer/investors creates a new relationship with a financial entity. Central KYC (CKYC) will store all the customer/investor information at one central server that is accessible to all the financial institutions. After normation a KYC account under the CKYC, customer/investor will get a 14-digit identification number ("KYC Number") and that the same may be quoted by the investor wanting to invest in mutual funds. Further, the Mutual Fund/AMC is required to check whether the PAN of the investor has been updated in CKYCR. In case the PAN has not been updated, the Mutual Fund/AMC shall collect a self certified copy of the investor's PAN card and update/upload the same in CKYCR. In case the Investor uses the old KRA KYC form for updating of any KYC information, such investor shall be required to provide additional/missing information only by using the supplementary CKYC form or fill the new "CKYC form".

#### XIX. Updation of Aadhaar:

In accordance with the amendment to Prevention of Money Laundering Act (PMLA) Rules, 2017 dated June 1, 2017, Mutual Funds are mandated to obtain Aadhaar Number ("Aadhaar") from their investors and link the same to his/her/their respective folios. As per the new rules linking of Aadhaar with Mutual Fund investments is mandatory, for all the Unit holders. Failing which, the folios may be made inoperative.

- Accordingly, the investors are requested to note the following: Every individual applicant shall submit the Aadhaar number.
- Non-individual applicants, Aadhaar number(s) issued to managers, officers or
- employees holding an attorney to transact shall be submitted. The applicants intending to hold units allotted in dematerialized mode, shall update the Aadhaar details in their Demat Accounts held with depository participants
  - The purpose of collection/usage of Aadhaar including demographic information is to comply with applicable laws / rules / regulations and provision of the said data is mandatory as per applicable laws / rules / regulations. Post obtaining Aadhaar, Edelweiss AMC/Fund/RTA shall authenticate the same in accordance with the Aadhaar Act, 2016. Edelweiss AMC/Fund/RTA shall receive investor's demographic information which shall be used only to comply with applicable laws / rules / regulations.

Submission of Aadhaar details does not warranty linking of Aadhaar in the investor Folios. The request for Aadhaar updation will be subject to: • Aadhaar details provided is correct;

- Investor name & Date of Birth to be mentioned should be identical to that appearing in Aadhaar.
- Investor details matching with details available with UIDAI;
- Authentication with UIDAI database & other required validations is successful
- Aadhaar will be updated in ALL his / her/their foilo(s) held with the Fund.

- 7. On the basis of an authorisation given by the account holder in the ASBA application, the SCSB shall block the subscription money in the Bank Account specified in the ASBA application. The subscription money shall remain blocked in the Bank Account till allotment of units under the scheme or till rejection of the application or incase of winding up of scheme, as the case may be.
- 8. If the Bank Account specified in the ASBA application does not have sufficient credit balance to meet the subscription money, the ASBA application shall be rejected by the SCSB.
- 9. The ASBA Form should not be accompanied by cheque, demand draft or any mode of payment other than authorisation to block subscription amount in the Bank Account.
- 10. Investor is required to submit a copy of the acknowledgement receipt of the ASBA Form (as submitted with SCSB) along with the NFO Application Form to Edelweiss Mutual Fund or any of its official point of acceptance.
- 11. Edelweiss Mutual Fund or its Registrar, Karvy shall not be liable for any negligence or mistake committed by the SCSBs.
- 12. All grievances relating to the ASBA facility may be addressed to the AMC/RTA to the issue, with a copy to the SCSB, giving full details such as name, address of the applicant, subscription amount blocked on application, bank account number and the designated Branch or the collection centre of the SCSB where the ASBA Form was submitted by the Investor.
- 13. ASBA facility extended to investors shall operate in accordance with the SEBI guidelines in force from time to time.
